

Oxford Floorboards

21mm Solid Oak

Detailed Drawings & Specifications

Oxford Floorboards

21mm Solid Oak

The Oxford quite literally offers the best of both worlds: long length boards combined with a range of impressive widths to create a genuine yet bespoke floor of your choice, while giving the benefits of a modern flooring board at its best - exceptionally well machined for tight joins and ease of laying.

With its filled and sanded finish, tongue and groove end and stress grooves on the back face (giving increased stability), this is as close as you can get a solid floor to engineered!

- End-matched, prefilled and sanded, reducing the installation time
- Stress grooved to increase stability
- Longer length specification
- Character grade to create an interesting floor with features
- Delivered in 3 – 5 days, stock item

✓ Technical Data
